

Pralay Mehta

Junior Angular Developer

+91 83470 38378 | pralaymehta97@gmail.com | Ahmedabad, Gujarat | linkedin.com/in/pralaymehta | github.com/pralaymehta

PROFESSIONAL SUMMARY

Angular Developer with 2+ years of professional experience building a production-grade project management platform at Q8 Technologies — progressing from intern to full-time Junior Developer within 2 months. Skilled in Angular 17, TypeScript, RxJS, PrimeNG, and RESTful API integration. Additional hands-on exposure to React, Node.js, and Next.js through a full-stack e-commerce internship. Proficient in TypeScript debugging and have foundational knowledge of PostgreSQL and .NET, actively working with .NET and PostgreSQL in current project development. Comfortable working in Agile/Scrum teams using Git and in-house project tracking tools.

WORK EXPERIENCE

Q8 Technologies — Junior Angular Developer

Aug 2024 – Present

Ahmedabad, Gujarat

- Lead frontend development of a production project management platform, owning end-to-end feature delivery from design to deployment.
- Built and maintained 15+ reusable Angular components using PrimeNG and PrimeFlex, reducing UI development time across new modules.
- Integrated REST APIs across 4 core modules (task management, reporting, user management, notifications), enabling real-time data updates.
- Implemented Angular lazy loading and route guards, improving initial page load performance.
- Collaborate in a 4-person Agile team in 2-week sprint cycles, contributing to sprint planning, code reviews, and retrospectives.

Q8 Technologies — Angular Developer Intern

June 2024 – July 2024

Ahmedabad, Gujarat · Converted to full-time after 2 months

- Developed Angular components, services, and pipes for a live project management platform used daily by internal teams.
- Worked with RESTful APIs to implement dynamic data handling and CRUD operations across multiple modules.
- Used PrimeNG, PrimeFlex, and Syncfusion UI libraries to build responsive, accessible interfaces.
- Practised Git branching, pull requests, and Agile task tracking using an in-house platform.

Grownited Pvt. Ltd — Software Engineer Intern

Jan 2023 – May 2023

Ahmedabad, Gujarat

- Built a full-stack e-furniture e-commerce website using the MERN stack (MongoDB, Express.js, React, Node.js).
- Developed RESTful APIs for product listings, user authentication (JWT), and order management.
- Integrated Redux for global state management, improving component re-render performance.
- Used Git and GitHub for version control across a collaborative team environment.

PROJECTS

To-Do List PWA

Angular · PrimeNG · Local Storage

- Built a Progressive Web App to-do manager in Angular with full CRUD, Reactive Forms validation, and local-storage persistence across sessions.
- Designed a mobile-responsive UI using PrimeNG and PrimeFlex; applied Angular service worker for offline capability.
- Structured the app with feature modules and lazy loading to practise production-grade Angular architecture.

TECHNICAL SKILLS

Core:

Angular 17 · TypeScript · RxJS · JavaScript (ES6+) · HTML5 · CSS3 / SCSS

Libraries & Tools:

PrimeNG · PrimeFlex · Syncfusion · REST APIs · React · Redux · Node.js (basic) · PostgreSQL · MongoDB

Practices:

Git / GitHub · Agile / Scrum · Python (basic)

EDUCATION

B.E. Information Technology — Government Engineering College Modasa 2018 – 2022

CGPA: 7.78 / 10

12th Standard — Shree N.H. Shah High School, Bayad 2018 – 2019

57.63%

10th Standard — Shree N.H. Shah High School, Bayad 2016 – 2017

74.33%

LANGUAGES

English (Conversational) · Hindi (Native) · Gujarati (Native)
